

UltraWater[®]
Solutions
Company Introduction

There is no company in the whole house filtration category with UltraWater Solutions credentials in both health innovations, product development, performance testing and The understanding of the health Benefits and risks of water.

Founded in 2003 by David Forsyth. Jay Hare current CEO joined as Davids partner in 2005. Both David and Jay had extreme passion for natural health and became the dynamic Duo of the performance water world.

Here's a short list of some of our firsts and innovations which are now accredited to UltraWater solutions.

1. First company to import the Alkaline water ionizer at a reasonable price. (2003)
2. First and only company to do extensive Lab testing of the filtration systems in the ionizers.(2004 thru 2025)
3. First company to offer dual filtration models of ionizers.
4. First company to offer lifetime warranties.
5. First company to develop nationwide and international distribution chains sharing user data for product improvement encompassing all 50 states and over 60 countries.
6. First company to offer self cleaning ionizers.
7. First and only company to Invest in 3rd party EPA certified lab test proving removal of 249 toxins from tap water.
8. First Company to employ multiple WQA certified water experts on staff.
9. First and only company to become the most laboratory validated Alkaline hydrogen water system in the world.

After 20 years of outstanding customer service, industry leading innovations and providing the most advanced health and Vitality generating Water systems We decided to create the worlds most healthy and laboratory validated whole house line of products.

Ultra Water Solutions, has broken open the stagnant whole house water industry with innovation after innovation becoming the most laboratory validated whole home water treatment system on the market today. UltraWater Solutions is nothing like the other companies who have been selling the same products for decades with no testing, no validation of performance, using potentially unsafe materials from foreign countries and have no background in health

Water is medicine! It is our first line in health and wellness, Demand the absolute best for you and your families health, demand UltraWater Solutions.
